✓ file:///Users/ranajitchowdhury/eclipse-workspace/NorthFace-AutomationExercise_Automation/src/test/resources/features/accessibility.feature

@accessibility @regression

Feature: Demo shop accessibility basics

As a shopper using assistive technology
I want core accessibility signals present
So that the site is usable

@regression @positive

Scenario: Home page meets basic accessibility requirements

- ✓ **Given** the shopper opens the demo shop for accessibility checks
- ✓ **Then** the page should declare a document language
- ✓ **And** the page title should not be empty

@regression @negative

Scenario: Search field is not missing an accessible name

- ✓ **Given** the shopper opens the demo products page for accessibility checks
- ✓ **Then** the product search field should have an accessible name

✓ file:///Users/ranajitchowdhury/eclipse-workspace/NorthFace-AutomationExercise_Automation/src/test/resources/features/api.feature

@api @regression

Feature: Demo shop public API

As a QA engineer
I want the REST API to return correct responses
So that backend contracts hold

@regression @positive

Scenario: Product list API returns products

- ✓ **When** the products API is requested
- ✓ **Then** the API responds with product data

@regression @negative

Scenario: verifyLogin without parameters is rejected

- ✓ **When** verifyLogin is called without required parameters
- ✓ **Then** the API reports a bad request

@regression @positive

Scenario: Brands list API returns brands

- ✓ **When** the brands API is requested
- ✓ **Then** the API responds with brand data

@regression @positive

Scenario: Search API returns matching products

- ✓ **When** products are searched via API for "top"
- ✓ **Then** the search API returns matching products

@regression @negative

Scenario: Search API without a term is rejected

- ✓ **When** products are searched via API without a term
- ✓ **Then** the search API reports a missing parameter

@regression @negative

Scenario: verifyLogin with an unknown account returns not found

- ✓ **When** login is attempted via API with an unknown account
- ✓ **Then** the API reports the user was not found

✓ ✓ file:///Users/ranajitchowdhury/eclipse-workspace/NorthFace-AutomationExercise_Automation/src/test/resources/features/auth.feature

@demo @regression @functional @auth

Feature: Demo shop authentication

As a shopper
I want registration and login to behave correctly
So that only valid users get in

Background:

- ✓ **Given** the shopper is on the demo login page

@regression @positive

Scenario: New user can start registration

- ✓ **When** the shopper starts signup with a new random email
- ✓ **Then** the account information page should be shown

@regression @negative

Scenario: Login with invalid credentials is rejected

- ✓ **When** the shopper logs in with invalid credentials
- ✓ **Then** a login error should be shown

✓ ✓ file:///Users/ranajitchowdhury/eclipse-workspace/NorthFace-AutomationExercise_Automation/src/test/resources/features/cart.feature

@demo @regression @cart @e2e

Feature: Demo shop add to cart (E2E)

As a shopper
I want to add a searched product to my cart
So that I can proceed toward checkout

Background:

- ✓ **Given** the shopper is on the demo shop

@regression @e2e

Scenario: Add first searched product to the cart

- ✓ **When** the shopper searches products for "top"
- ✓ **And** the shopper adds the first product to the cart
- ✓ **Then** the demo cart should contain at least 1 item
- ✓ **And** the demo cart should offer checkout

✓ ✓ file:///Users/ranajitchowdhury/eclipse-workspace/NorthFace-AutomationExercise_Automation/src/test/resources/features/navigation.feature

@demo @smoke

Feature: Demo shop smoke

As a shopper
I want the demo shop to load
So that E2E flows have a stable base

@smoke

Scenario: Demo shop home page loads

- ✓ **Given** the shopper is on the demo shop
- ✓ **Then** the demo shop home page should load

✓ ✓ file:///Users/ranajitchowdhury/eclipse-workspace/NorthFace-AutomationExercise_Automation/src/test/resources/features/negative.feature

@demo @regression @negative

Feature: Demo shop negative search

As a shopper
I want clear feedback when a search matches nothing
So that I am not confused by an empty page

Background:

- ✓ **Given** the shopper is on the demo shop

@regression @negative

Scenario: Searching gibberish shows no products

- ✓ **When** the shopper searches products for "zxqwlkjhgfd12345"
- ✓ **Then** no demo products should be shown

✓ ✓ file:///Users/ranajitchowdhury/eclipse-workspace/NorthFace-AutomationExercise_Automation/src/test/resources/features/performance.feature

@performance @regression

Feature: Demo shop performance smoke

As a QA engineer
I want page load time within budget
So that performance regressions are caught early

Background:

- ✓ **Given** the shopper measures the demo shop load time

@regression @positive

Scenario: Home page loads within the performance budget

- ✓ **Then** the page should load within the performance budget

@regression @negative

Scenario: Load time exceeds an unrealistic 1 ms budget

- ✓ **Then** the page load time should exceed 1 ms

✓ file:///Users/ranajitchowdhury/eclipse-workspace/NorthFace-AutomationExercise_Automation/src/test/resources/features/search.feature

@demo @regression @search

Feature: Demo shop product search

As a shopper
I want to search the demo catalogue
So that I can find products

Background:

- ✓ **Given** the shopper is on the demo shop

@regression @data-driven

Scenario Outline: Valid searches return products

- ✓ **When** the shopper searches products for "<term>"
- ✓ **Then** the demo product results should be displayed

Examples:

	term
✓	dress
✓	top
✓	jeans
✓	tshirt

✓ file:///Users/ranajitchowdhury/eclipse-workspace/NorthFace-AutomationExercise_Automation/src/test/resources/features/smoke.feature

@smoke @northface

Feature: North Face smoke tests - core pages load

As a shopper
I want the essential North Face pages and controls to load
So that I can trust the site is up

Background:

- ✓ **Given** the user is on the North Face home page

@smoke @regression

Scenario: Home page loads with brand logo

- ✓ **Then** the brand logo should be displayed
- ✓ **And** the page title should contain "The North Face"

@smoke @regression

Scenario: Primary navigation is available

- ✓ **Then** the primary navigation should be displayed
